Dear Shipmate,

Spring 2024 Newsletter

It's been a long 3 years! Like many of you, my health has not been good. Three years ago, I lost personal strength, slept all the time plus other problems. It took my doctor 10 months to figure out my right sinus was completely plugged with a bad fungus. It was so bad the fungus had grown a piece of bone in there. I finally found a doctor who went in and cleaned the fungus out. I'm now breathing 100% oxygen instead of 50%. It's helped a lot but still a long way to go. Long trip home from Florida but got here for the eclipse. Made me realize what our world would be without the sun. It immediately turned cold and dark.

We had a great reunion In Mackinaw City, Michigan June 2023. There were 20 people present. We spent a day on Mackinaw Island, only 2 vehicles on the island, fire truck and ambulance everything else horse drawn. Just pleasant to slow down. Bob & Pat Kulhanek treated us to a campfire and smores at their campground.
